Real Title = COMP. IN HOME APPLICATIONS.
What to you do? sounds
excellent, uncertain.

Home only. not mfg as yet.

AT LAST THE DINKIES

Absurdity of term 'microcomputer'

MICROCABLE
MICRO-TAPE RECORDER

Let's review history. (REVISIONIST)

'64 IBM was decent PC world.
- Well, why buy IBM
- Let's be overhanded & buy 64 copy. Cost

Slowly we GOING PHASE TALON
⇒ What was the 360/30?

But lo, the sales pitch involved
SETTING UP A DEPT.
~~and~~
LOYAL TO MFR.
And this was the real meaning.
IN EVERY COMPANY
There come to be
a dept.
LOYAL NOT SO MUCH
TO THE COMPANY
AS TO THE MFR.,
IN VERY CLOSE &
SPECIAL RELATION.

The Mfr would train the people and GET them their JOBS, the people would bow to the Mfr and

ASK FOR BIGGER AND BIGGER COMPUTERS.

The Mfr. would support and shield these people, and defend them against threats — INCLUDING the threat of other computers IN-HOUSE.

I FOUGHT THIS ONE
IN THREE
DIFFERENT COMPANIES -

'Why should there be a
separate computer
for this purpose
when we've already
got one?!

CONSIDER THE CUCKOO

parasitic nurturance.

... GROWS & GROWS
& PUSHES OUT
OTHER EGGS
& EATS THE FOOD
THEY WOULD'VE
GOTTEN.

COMP. CENTERS
HAVE BEEN A
CUCKOO WAY
TO USE COMPUTERS

Like many people sleep in dormitories in shifts
People should have right to sleep alone
or in groups of choosing

So we have all these
cuckoo operating systems,
cuckoo access methods,
cuckoo entry systems

AND NOW AT LAST
PEOPLE ARE ABOUT TO DO
WHAT THEY SHOULD HAVE
DONE IN THE FIRST PLACE
and if we're not careful
IBM will get the credit
for it.
Look, I wish you luck. But keep your head down
and if there is any trouble

Harm already done to society. ←
APATHY — LEAVE IT TO EXPERTS
& VICTIM-PRECAUTIONS & FACT/MIRV

YOU SHALL NOT
CRUCIFY MANKIND
UPON A CROSS
OF EXPERTISE!

IF IBM HAD WANTED
THE PUBLIC TO UNDERSTAND
COMPUTERS IN 1964,
THEY WOULD HAVE
UNDERSTOOD THEM
IN 1965.

· Some cynics have regarded the medieval Christian Church as carefully designed for absolute control of a subject population

— LATIN kept people in awe & set aside priesthood

— CONFESSIONAL assured the rapid spiritual control of successive generations.

NOW NEW PRIESTHOOD;
NOW INSTEAD OF LATIN
WE HAVE JCL
AND INSTEAD OF THE C. BOOTH
WE HAVE THE RJE TERMINAL.

~~$~~ Distributed Computing
means everybody ~~has~~ is now allowed
his own computer

Distributed Data means
we don't all have to
use the calculator
at
Distributed Sleeping
means we can all
go home to bed.

And the LITTLE MAMMALS
are now
NIBBLING
AT D. EGGS.

Right now we're just starting with Dijkstra's
Horse & buggy age
Assemblers & loaders
'You're got to
work before you can run.'

AND so we're all set to
make the same mistakes again.
